Dear Council Member Ms. Cheh,

My name is Apollo Holder. I am seven years old and attend Georgetown Day School. I live at Upton St. NW in Washington, DC. I am writing to you because I am worried about the cars going too fast on our street because when we play two square, the ball sometimes falls into the street. My sisters and I are worried about cars going too fast down our street. I have two sisters. Pilar is thirteen and is going into 7th grade and my other sister, Sloane, is ten years old and going into the 5th grade. I have noticed that many cars zoom through the street. I feel scared going into the street and crossing the street, even when I look both ways. There is also other kids who live on our street. I hope you could put speed bumps on our street so the cars can slow down automatically. When people cross the street, they do not have to worry and can be safe.

Sincerely,

Apollo Holder (with help from Pilar and Sloane Holder)
